Hello

Happy New Year!

Thank you to everyone who has been helping us gather local queries and concerns about the roll out of the Covid Vaccination programme in Norfolk and Waveney. The latest version of the myth buster is now available on our website <https://www.norfolkandwaveneyccg.nhs.uk/covid-19-vaccination-programme>. Please promote this on your networks and with people you support.

As the situation is currently changing so rapidly, we will aim to keep updating the myth buster and other information on our webpage, so please check back for regular updates and continue to let us know of any concerns and issues that you think should be included.

We are also working on easy read and different language versions which we will upload to the webpage as soon as they are ready, and our website uses Browsealoud software to help make our information more accessible.

Thank you once again for all your help and support.

Best wishes

Rebecca Champion and Oliver Cruickshank
